

Syrinx desktop

It is possible to order a desktop PC already configured with Syrinx functions and FridgeLog Z software already installed and working, included in the price.

The ZED radio modules send data to the EAPL (Ethernet Access Point Lite) receivers connected to the local network and these send data via Ethernet to the collectors called Syrinx. Data are displayed on the FridgeLog Z software that can be installed on more than one PC in the same network as data are shared.

Main features

Accessories

- USB modem
- EAPL Ethernet Access Point Lite
