BlueLog SDK

Do you want to develop your system with apps, software and the Cloud? Would you like to take advantage of existing devices and focus only on application development? Ask us how to interface with our BlueLOGs, the versatile Bluetooth loggers for all needs. The BlueLOGs can be supplied in numerous configurations, including personalized ones, and it is also possible to request them with your own brand. They are easy to implement using standard BLE commands. We will provide you with the technical note and assistance needed to help you develop your proprietary solution.
