# Jupiter

Radio module for the LoRa DeepWave system: ePaper wide screen (like the one of ebooks), 2 inputs for Smart Sensor chosen from those available (temperature, humidity, differential pressure, light), local acoustic alarms through a buzzer. The **Smart Sensors** (not included) are supplied with an **reference traceable calibration certificate** and allow fast, economic and easy recalibration of the whole system, without external intervention. Jupiter mounts external antenna and external power also (batteries are used as a backup). DeepWave solution is based on the Lo.Ra. (Long Range) radio protocol which allows transmission over very long distance and requires only one Helios receiver to cover all nodes. Batteries are easily replaceable by the user.

### Main features

- Lora radio module for long distances transmission (up to 3 km in open field)
- Supports up to two Smart Sensors of temperature, humidity, differential pressure, light
- 2.9" wide ePaper display
- External power connector (power adapter not included)
- External antenna included
- 4-buttons for display screen scrolling
- User replaceable batteries
- Certificate traceable to a national standard included with the Smart Sensors

## **Plus**

- Easy to install and configure
- Quick recalibration with the Smart Sensors
- With the external antenna you increase the transmission by 50%
- Wide and low energy display
- Local alarm for immediate intervention
- Thanks to the external power you forget to change the batteries
- Covers long transmission distances
- Validatable DeepWave LoRa system in pharmaceutical and healthcare environment

### The system

Lora Wan DeepWave system is made up by:

- DeepWave radio modules (LoRa nodes)
- Helios receiver (LoRa gateway)
- TSLog 21 software

# **Applications**

Pharmaceutical

Healthcare

Cosmetics

Validation

Medical

Cold Chain

Warehouses

Environment

Food & Beverages

Laboratories

Constructions

### **Accessories**

- TSLog 21
- Helios LoRa Gateway
- Surface Support for DeepWave Node
- Wall Mounting support for DeepWave Node
- Temperature Smart Sensor
- -80°C temperature Smart Sensor
- 200 temperature Smart Sensor
- Temperature Smart Sensor with thin cable
- Temperature and humidity Smart Sensor
- Differential Pressure Smart Sensor
- Light Smart Sensor (On/Off)
- Temperature Smart Sensor with internal sensor
- Smart Sensor / ZED IT adapter cable extensions
- Flat DeepWave Node / Smart Sensor cable extension
- LoRa Node / Smart Sensor cable extensions

# **Technical specifications**

Dimensions	159.6 X 88 x 33 (mm) (with connectors) / 146.6 X 88 X 33 (mm) (without connectors)
Weight	280 g
Materials	ABS, Rubber
Sensors	2 X Smart Sensor inputs
Temperature range	-20 °C ÷ +50 °C (non condensing)
Memory (n. of acquisitions)	16.383
Acquisition step	From one every 5 minutes up (in steps of 1 minute)
Display size	
Display and functions	Current values, Alarms, Diagnostics, Radio Signal Strength
Alarms	Local (acoustic)
Functions	Data recording, transmission, alarm
Communication	Radio
Communication	nado
Protocollo Radio	LoRa
Protocollo Radio	LoRa
Protocollo Radio  Available frequencies	LoRa 868 MHz, 915 MHz, 920 MHz, 923-2 MHz
Protocollo Radio  Available frequencies  Antennae	LoRa  868 MHz, 915 MHz, 920 MHz, 923-2 MHz  External
Protocollo Radio  Available frequencies  Antennae  Battery type	LoRa  868 MHz, 915 MHz, 920 MHz, 923-2 MHz  External  3 X AA 1,5 V batteries
Protocollo Radio  Available frequencies  Antennae  Battery type  Battery life	LoRa  868 MHz, 915 MHz, 920 MHz, 923-2 MHz  External  3 X AA 1,5 V batteries  12 months with 15 minutes transmission step and 2 sensors connected
Protocollo Radio  Available frequencies  Antennae  Battery type  Battery life  Power supply	LoRa  868 MHz, 915 MHz, 920 MHz, 923-2 MHz  External  3 X AA 1,5 V batteries  12 months with 15 minutes transmission step and 2 sensors connected  6-26 V (adapter not included)
Protocollo Radio  Available frequencies  Antennae  Battery type  Battery life  Power supply  Protection degree	LoRa  868 MHz, 915 MHz, 920 MHz, 923-2 MHz  External  3 X AA 1,5 V batteries  12 months with 15 minutes transmission step and 2 sensors connected  6-26 V (adapter not included)  IP65
