

## NEBULA OF DATA CLOUD QuickStart Guide

1. Send the e-mail address (login) and the name of the contact to create the Administrator profile and the loggers to be associated with your company's Cloud, if not already assigned during the purchase, to <u>cloud@tecnosoft.eu</u>.

2. The Tecnosoft Team will create the Administrator account on Nebula of Data from which you will receive an email with your Username (email address) and after clicking on LOGIN the browser will open on a web page where you can set your login password.

PHICENIX ROBOTIX	Set Your Password
Welcome to Datoms !	Please choose a new password to finish signing in.
Hi Mario ,	Password
Your Datoms Account has been created. Here are your account details: URL: https://app.datoms.io	
Username: <u>Mario.Rossi@tecnosoft.eu</u>	Confirm Password
Best Regards,	
The Datoms team.	SET

3. Once you logged in, it will be possible to change the language and unit of measurement with which the data will be displayed by clicking on your name at the top right and then on *Preferences*, after that you can select the language and the unit of measurement by clicking on the arrow on the right and the drop-down menu will be shown. Click OK to confirm the changes.

4. You can create other users by clicking on Add User in the User Management section.

D	Tecnosoft User Management	
	A Add User Max Users: 10	
۶.	Name 🚖	Role
	Mario Rossi	Noie
	nod.cloud@tecnosoft.eu Last login: 12:50, 09 Apr	Admin
	Roberto Bianchi roberto.bianchi@tecnosoft.eu Last login: Invitation Sent	Advanced

5. After that you need to click + Add New User to create the new profile.

Add New	/ User		
Contact		V	+ Add New User

6. Assign the user a name, an email and a role (Administrator, Advanced, Standard). At this stage it is also possible to assign the loggers, which have been added to your company, to the user, then click on Submit on the right bottom of the page and the user name will appear in the list. **N.B. Only Admininstrators can create an Administrator user**.

7. In the **Loggers** section you will find the list of all your loggers associated with the Cloud. All loggers are color-matched because in the graph every logger is shown with its own color. It is possible to change the color by clicking on the color itself and choose another one from those proposed.

Tecnosift   Loggers			
Q, Search logger			1 - 4 of 4 items < 1
Serial No	Last Data Received Time	Active Status	Color
MACD1061C83ECD4		active

MACC5132E1391A6	02/04/2021, 19:54	active	

8. The **Dashboard** displays the missions carried out, those that are started, those downloaded successfully and the failed ones, the missions are considered failed when any parameter exceeds the threshold. By clicking on *Details* you can view real-time data if a mission started in real time from the BlueTrails App and is still running.
